THE LIVES OF OUR KIND

**WELCOME TO THE NEW
WE ARE RUSTY
WE LOOK LEFT
WE THE WEIRDOOS
WE THE NOISE
WE REINVENT
WE STAY FOOLISH
WE ARE OUR KIND**

R U S T Y

NOA NOA NOA NOA NOA NOA NOA NOA NOA

Noa Deane is the sh#t, he surfs with a ferocious spontaneity which has earnt him such accolades as Surfer Polls "Andy Irons Break Thru Performer Of The Year" and "Best Short Movie" Cheese 2.

He is no longer in Dane Reynolds shadow as the next..... Noa's surfing performance now casts its own shadow & a shadow that is to become prodigious after the release of Kai Neville's movie Cluster.

Noa brings a youthful edge, a rock 'n' roll attitude and the good times to Rusty with a cheeky grin.

Noa's influence carries through the brands DNA, products, marketing and through to our customers...

Who doesn't want to be Noa?

'THE LIVES OF OUR KING'

NORA DEANE

STERLING SPENCER

The young Pensacola, Florida native Sterling Spencer has carved a niche for himself in the surf world, and it has little to do with his surfing. Although he rips, people love (& hate) him more for his Photoshop and voice-over antics than what he does on the face of a wave.

Even if you have been living under a rock you would know Sterling has won back to back world titles not only in crab racing but on the WSL and we aint talking the Womens Surf League either we are talking about where the big boys play on the World Surf League and has sent Kelly Slater bald with his nonchalant attitude for winning novelty sized cheques and dropping 1130's like its hot.

Rusty has some entertaining clips from Sterling showcasing the brand in an entirely new way that will make you smile.

'THE LIVES OF OUR KIND'

JOSH KERR

A full-page background image of a surfer, Josh Kerr, riding a massive, curling wave. The surfer is positioned in the lower center of the frame, crouched and leaning forward, navigating the base of the wave's barrel. The wave is a deep, vibrant blue, with white foam and spray erupting from the top and sides. The sky above is a pale, hazy blue. The overall mood is one of intense action and natural beauty.

Josh Kerr is becoming a super hero amongst mere mortals. His surfing covers all aspects from some of the most technical ariels to grinding himself thru monster barrels making spots like Chopes & Pipe look fun and with a renowned rail game is the icing on the cake. His mindset on the WSL never falters; if he needs a big score he can reach into his bags of tricks and combo his opposition in the time it takes them to paddle back out. Josh is a solid contender, whether he wants a title or not its up to him but we think he'd rather go for tens or zeros than sit in the middle of the road of mediocrity.

Metal ALOHA

Welcome to METAL ALOHA.....Now GO HOME.

METAL ALOHA is a juxtaposition of two elements being seen together to create a contrasting effect

Our Surf culture's existence is the essence of juxtapositions, with a party all night and surf all day attitude. To surf the gnarliest death defying waves you can.... With a smile. Surfers want to be rocks stars & rocks stars want to be surfers, it's these opposites that attract and make surfing so unique.

The METAL ALOHA collection encompasses heavy METAL music with the Hawaiian ALOHA spirit; combine the two and you have a fresh direction that hasn't been seen before.

METAL ALOHA is a new initiative from Rusty being launched for Spring 2015 and will evolve season- to- season with the main product focus being board shorts & swim wear. This vision will also guide our other product categories as we look to present a story that is uniquely Rusty.

METAL ALOHA is going global with a simultaneous world- wide launch, it will be Rusty's primary marketing direction encompassing all print, social media and instore mediums.

Think hula girls shuffling their hips to Metallica's Kill Em All album.

METAL ALOHA is going make some Fu#kin noise, politely.

“OUR KIND LIVE IN BOARDIES”

The history of Rusty board shorts runs deeper than you think. Rusty is a company that is entrenched in the surf DNA, we are one of the most recognised & prestigious surfboard manufacturer's in the world. The man, the legend, but no myth Rusty Priesendorfer is a surfer & has dedicated his life to shaping boards. Shaping boards was always an excuse for more time in the water or what Rusty calls R & D, never one to let work get in the way of pumping waves.

Rusty has been making boards with the infamous R Dot logo on since 1985 and as Rusty soon discovered on his R & D trips he needed to have a comfortable & durable pair of board shorts as he was getting 3rd degree burns in places that medical practitioners had never seen before. Out of sheer necessity and an abundant of nappy rash cream the board short business quickly followed that of surfboards. In Rusty's eyes you need 3 things to go surfing; waves, surfboards and unless you like to surf 'au naturel' then you need a pair of board shorts.

Rusty has been in the board short game for some time now, we make boardies for surfers not pool ponies. Our board shorts are as technical as the next, how many times can you come up for a word to describe 4 way stretch, water repellent or quick dry materials?

We will let the others try and out tech each other, but we will let you in on a little secret.... Just keep on the down low.... We have some of the most technically advanced board shorts on the market, but we don't blow smoke and we aren't going to enter into the tech war. These days it goes without saying that your boardies need to be high performance, our point of difference is our focus on fits and graphic aesthetics while providing a technical board short that meets and exceeds our competition...

If you have read the above or just skipped to this part

B.C.

(BEFORE CROWDS)

In 1985 Rusty Preisendorfer started his own shaping line called Rusty using a large R with a dot as his logo. This was referred to simply as the 'R Dot'. A symbol which did not take long to move onto apparel as the brand became more established and recognised in the world of surfing.

Before Crowds pays homage to these early beginnings of Rusty and the 'R Dot'. Here we will be bringing back original pieces we believe stand the test of time, personally sourced from the great man's wardrobe himself.

Real men open their beer by popping the top off an ice cold stubby on the corner of some brick work, you cant call yourself a man opening a beer with a thong can ya now? NO you cant.

Rusty thongs are for BBQ's, wearing while using a chain saw 6ft up a tree and even come in handy when swatting flies, we don't make thongs to run marathons in we make them for practical decisions and good times.

Rusty is consistently bringing new technology to the open toe footwear market, we brought you the 'no blowout' thong and this season we are proud to announce 'ANTI BINDI TECHNOLOGY". After countless hours of R & D with outback explorer Russel Coit this world first technology will have you fearing large patches of grass no more.

Think outside the box, it's 1970's inspired footwear combined with the all new "ANTI BINDI TECHNOLOGY" making it one of the most unique thongs in the open toe market..... a market we take very seriously.

Running over the front lawn to stop the ice cream van? No more summer Bindi Blues for you my man.... No need to thank us, your welcome!

This years SBIA footwear award is in the bag, go and slide into one today.
